

A Practica Legal Guide to PRC Real Estate Investment

Zhongzhi Gao

This book is a major contribution to a broader understanding of this critical area of Chinese law. It has been necessitated by the major changes in property rights in China brought by the landmark Property Rights Law of 2007. The author brought to the writing his experience in local land administration, his exposure to land law in legal systems beyond that of China, and his experience as a practising attorney in advising clients investing in China. The book filled a major gap: a systematic introduction to this key and complex area of law. It is of equal interest to lawyers, economists and investors. This book is essential to corporate investors in China or advisors to such investors.
