Power Aware Energy Efficient Routing Protocol

a new approach to energy efficient routing in MANETs

This book will help the students in understanding the basic concept of MANETs and the respective growth in this field. As the routing and resource management are the prime issues in MANETs, this book will help in understanding them more thoroughly and will give an idea of new protocol which can work simultaneously on these issues. The book is well planned and will enhance your knowledge step by step. The author has tried to make the book simple and easy to understand. Hope this book will help the emerging aspirants in this field. The author is also presenting her gratitude towards her family and mentors through this book.
