

# Power and Crime

Vincenzo Ruggiero

This book provides an analysis of the two concepts of power and crime and posits that criminologists can learn more about these concepts by incorporating ideas from disciplines outside of criminology. Although arguably a rendezvous discipline, Vincenzo Ruggiero argues that criminology can gain much insight from other fields such as the political sciences, ethics, social theory, critical legal studies, economic theory, and classical literature. In this book Ruggiero offers an authoritative synthesis of a range of intellectual conceptions of crime and power, drawing on the works and theories of classical, as well as contemporary thinkers, in the above fields of knowledge, arguing that criminology can humbly renounce claims to intellectual independence and adopt notions and perspectives from other disciplines. The theories presented locate the crimes of the powerful in different disciplinary contexts and make the book essential reading for academics and students involved in the study of criminology, sociology, law, politics and philosophy.
