

# Powers of the Gods

Hortensia De Los Santos

In the magical world of Maya the survivors of Earth's cataclysm have started their new lives. Surrounded by unseen beings, they haven't realized the world where they now live is full of fantastic creatures, where trees and flowers talk and fly, and where legendary personages live a life full of adventures. Atri, the storyteller, in his search for legends about the lost world follows a trail leading to the mythical savior of Earth, the great goddess Gaia who has a task for him. Maat, the goddess of truth, balance and order offers them a fair trial. Will the other gods accept her judgment, or is this a trap for humankind?
