

Practical Approach Series: Universal Unlock: Macintosh CD- Rom Network Version for 2-10 Users

These practical lab guides are now available on CD-ROM. A total of 68 bestselling titles are available electronically, enabling laboratory researchers and academic departments to search and cross-reference thousands of protocols in seconds. Alternatively, smaller or more specialized labs may choose to buy access to any ten titles. Subsequent titles can be bought in blocks of ten allowing the user to build a customized database tailored to their specific needs. Annotations can be added to any part of the text, allowing protocols to show local variations. Specifications: Macintosh OS version 7.5 or later 4Mb memory (8Mb recommended) and colour monitor and graphics card capable of at least 256 colours at a minimum resolution of 640x480.
