

# PRACTICAL ENVIRONMENTAL ANALYSIS

Miroslav Radojević  
and Vladimir N. Bashkin

# Practical Environmental Analysis

M. Radojevic, V. Bashkin

This text provides detailed instructions for practical experiments in environmental analysis. The comprehensive coverage includes the chemical analysis of important pollutants in air, water, soil and plant tissues, and the experiments generally require only basic laboratory equipment. The book is supplemented by theoretical material explaining, amongst other concepts, the principles behind each method and the importance of various pollutants. Also included are suggestions for projects and example calculations.
