

# Practical Experience in Building Expert Systems

Edited by M. Brammer

Practical Experience in Building Expert Systems brings together detailed descriptions of completed expert systems written from a critical viewpoint. Contributors discuss projects from a warts-and-all perspective, and a full complement of partial or complete failures are described, as well as a number successes. The aim is to provide the potential expert systems developer with hard information based on actual experience from a variety of countries and a wide range of applications areas, and to pass on these lessons to developers of future expert systems.
